

CORONAVIRUS CLOSURE NOTICE:

Having considered the latest advice given by the Government and the CIPD in recent days we have today taken the difficult decision to postpone all group sessions at the DJT Centre for the time being.

As you will know (if you follow us on Instagram or Facebook or have had an email from us recently), we have been employing all possible measures to continue to provide the training that is so crucial to our Industry. You may even have received an email asking you to change your course date - which was our effort to create smaller group-sizes where delegates could sit at desks 1.5meters apart.

Having looked at the governments advice closely, we now feel that the only true policy we can follow in order to avoid **any possibility** of contamination at DJT is to close the Centre.

If you are booked on a course with us at the **end of March, in April or in May** we will be offering alternate dates in **late-June or July** to sit your course. This will allow anyone who needs to self-isolate the time to do so, & meets with the 12-week timescale which has initially been given as a period where we (as a company) should avoid the organising of social-gatherings that are not deemed to be crucial.

These courses include the March C&G2919 (Electric Vehicle Charging course), the April C&G2391 (Inspection & Testing), the April & May C&G2382's (18th Edition) and the Advanced Inspection & Testing.

You will not have to re-book your course and you will not be charged any more than the fees you have already paid. Once the restrictions have been lifted we will do everything necessary to ensure everyone completes their training and their exams.

It is needless to say that we value the safety of our delegates and employees above all, & this remains our number one priority. If you have any questions, concerns or feelings you'd like to share with us, please feel free to email me directly.

As we continue to reassess the situation, we will inform you of any updates as soon as possible.

Our thoughts remain with you and your families during this unprecedented time. Stay well, and we look forward to opening the Centre to courses again as soon as possible.
